RODEO JUDGES, JUDGING & TIMEKEEPERS

1. Reliable announcers, pick-up men, chute help, timers, flaggers, judges, etc., are the responsibility of the stock contractor and rodeo committee. Contract personnel must have a non-contesting KPRA membership card prior to, or purchase a card before the completion of, rodeo being worked.

2. There will be 2 timekeepers at every performance of a KPRA approved rodeo. They shall not be changed except in the event of injury, emergency or incompetence. In the event a timer must be changed, it will be with approval of judges and stock contractor. The person who starts timing the rough stock event must be the one to time throughout the entire event at all performances. Timers may trade off in the different events. Two watches must be used at all times. One timer will be the primary (head) timer and the second timer will be the back up timer. If the times differ by more than 4 tenths of a second, the fastest time must be used. They must be competent and approved by the rodeo stock contractor. It is required that an electric timer be used in the barrel race and it must be backed up by at least one timekeeper.
3. It is the responsibility of each stock contractor to get the timer to the rodeo. The judge is then responsible for setting the barrel and timer stakes, and for setting the electronic timing devices for each performance and slack.
4. In the event KPRA has received a complaint against a judge's work, a petition with at least 10 signatures by KPRA members in good standing must be filed at the KPRA office. This will result in an immediate suspension, to be handled by the KPRA. Any judge that is petitioned against will be handled by the board and they will decide if he will be required to attend the next scheduled judges seminar before judging again.
5. Every KPRA rodeo will require 2 judges to work all events. Judges must be approved by the KPRA Judging Director and must have their KPRA membership bought prior to judging. A Judge may compete in a timed event with a replacement barrier judge for the entire rodeo in that event. He shall not draw stock for that event.
 - 5a. Judges must judge 2 KPRA first approved rodeos to judge at Finals.
 - 5b. All judges must attend a judges clinic at least every two (2) years before judging a KPRA rodeo.
6. At least one judge shall be present for the drawing of all rodeo stock. Arrangements should be made with the stock contractor to do so.
7. Decision of judges, flagman and timers shall be final if in accordance with KPRA rules. In all cases of dispute, the rodeo performance will continue without delay under existing rules of the KPRA and the matter of dispute shall be settled by the rodeo judges, stock contractors, board members and spokesman present at a time which will cause no further delay of the rodeo.
8. Any judge's ruling which is NOT in compliance with the rules of the KPRA should be dealt with by the event director, if present, or a spokesman from the event elected to do so at the time immediately if the decision will have an immediate affect on the outcome of the event, or immediately following the event, or performance, if possible.
9. Once judging sheets are handed in to the rodeo secretary when the event is finished, the contestant's score or time is final.
10. Judges scores on each ride and times in the timed events should be relayed to the rodeo announcer so that those scores and times may be made available to the rodeo audience immediately after the ride or run. It is the responsibility of the rodeo committee and announcer to see that these scores are posted as mentioned here.

11. If in the opinion of the judges, a rider makes two honest efforts to compete on an animal and is unable to do so, he shall have a re-ride animal drawn for him.
12. Anytime a contestant is fouled in any riding event, he must declare himself or take that score. Anytime a timed event contestant is fouled, he must declare himself immediately when fouled or take his time. To declare himself means to make no further attempt to make a qualified ride or run.
13. In all events, all equipment which is used by contestant is his responsibility and there will not be a re-ride or re-run because of his faulty equipment; borrowed equipment is accepted as contestants own.
14. Re-runs in the barrel race will be made immediately following the final contestant's run, or immediately following the rodeo whichever is more appropriate for the contestant. All other re-runs and re-rides will be run at the convenience of the stock contractor.
15. Judges will award re-rides at their own discretion. The rider will have the option to take the re-ride or the score received from the judges. The judges must notify the rodeo secretary that a re-ride or re-run is in order before the next contestant competes. This is mandatory.
16. General rules for disqualification in all events are:
 - a. Cheating or attempting to cheat.
 - b. Rowdiness or quarreling in the rodeo arena and immediate area.
 - c. Being under the influence of liquor in the arena.
 - d. Mistreatment of stock or mount.

The rider and animal shall be marked separately, marking the rider according to how he spurs and the animal according to its performance.
2. All rough stock is to be ridden 8 seconds. Time is to start when stock's inside shoulder first breaks the plane of the chute. GENERAL TIMED EVENT RULES

1. In any timed event, if an animal escapes from the arena, the flag will be dropped and watches stopped. Contestants will get animal back with a lap and tap start and the time already spent will be added to the time used on lap and tap run. If field flagger fails to drop flag when animal escapes and time is not recorded, the decision of the flag judge shall be final. If rope is on animal when it escapes from the arena, the roper will get the animal lap and tap with the rope on it in the chute, plus any penalties.
2. The field flagger must ask contestants if they want a 2nd loop or jump before flagging them out unless they have already disqualified themselves for a 2nd loop or jump in some other manner. The contestant must make his decision at once and give the flag man an answer immediately.
3. Once a man has been flagged out he will receive no stock back. The field flagger has made his decision on the matter just as a rough stock judge makes his decision as to whether a rider has missed an animal out of the chute.
4. The barrier judge and field flagger shall not be changed during the rodeo unless in emergency cases.
5. The decision of any judges, flagmen or timers will be final.
6. Anytime a timed event contestant is fouled, he must declare himself immediately when fouled or take his time. This includes the hazer in steer wrestling.
7. A barrier judge shall be on hand when an automatic barrier is used. The barrier judge will be the only person to place or supervise the placing of the barrier-breaking rope on each and every animal. He will also pass any decisions on faulty barrier. The barrier judge is responsible to change barrier string whenever it may have weakened or on the request of the next contestant.

8. A 10 second penalty will be added for breaking or beating barrier in timed events.
9. In all timed events, barrier will not be considered broken unless ring drops within 10 feet of the post.
10. Barrier equipment must be inspected by the judge before each timed event. If the equipment is faulty, it must be replaced. All barriers must be marked in a permanent manner and posted.
11. Should barrier break at any point other than designated breaking point, decision is up to the barrier judge.
12. If contestant obviously beats barrier, but the staples are pulled or barrier rope is broken and string unbroken, barrier judge may assess a 10 second penalty. Otherwise, this will not be considered a broken barrier.
13. An automatic barrier must be used in all KPRA rodeos. No metal snaps may be used on neck ropes. Only neck ropes may be used as barriers, no trip alleys allowed.
 - 13a. Rubber bands or string may be used at qualifying rodeos. String will be used at the finals.
14. Once score line has been set in the timed events, it will not be changed at the rodeo, nor can the length of the box be changed.
15. In order for the time to be considered official, the barrier flag must operate.
16. If the automatic barrier does not work but the contestant or team makes a qualified run, a re-run will be given on the same stock before the stock may be competed on by another contestant. Judge has the option to waive the 10 second penalty and the time will stand as it is.
17. If an animal must be brought back for a re-run, it should be brought back with several other animals and no excess stress should be placed on said animal which will offer the contestant an unfair advantage or disadvantage (whichever the case may be) over the other contestants in that event.
18. Stock in timed events shall be drawn as much as 2-2½ hours before the performance. All stock must be drawn by number, including team roping cattle.
19. All changes in lists of timed events in order to split horses, etc. must be made before any stock for that event is loaded in chutes. After stock is loaded, contestants must compete in order listed.
20. The first three contestants must remain in order and run in order.
21. All stock contractors will have timed event stock properly identified. No stick on numbers allowed.
22. If a contestant runs the wrong head of stock, the contestant will be disqualified. It will be the contestant's responsibility to see that the right stock is in the chute.

24. Pusher may not go beyond the end of the gate while pushing stock.
25. The line judge must have 1 liner to stand on opposite side of line during duration of performance and slack, but no more than 2 liners. It is the contestants responsibility before he/she accepts his run to see they are in place.
26. Pertaining to the draw: All cattle must be run once, before any cattle will be run twice. Due to a split performance, if this procedure becomes

impossible, the draw will include cattle remaining that have run the least number of times. In case of re-runs, all cattle in the draw will be run 1 time before being run twice. Any animal drawn and not competed on shall be considered run and if there are no re-runs, animal shall be used for the 1st extra.

27. In a multi-go round rodeo, no contestant (exact same team) can compete on the same head of stock more than one time.

28. The timing of timed events will be in tenths. Barrel racing is to be timed manually in tenths and electronically in hundredths.

29. Consistently undesirable rodeo stock may be disqualified for use at KPRA approved rodeos after consulting with the stock contractor and event directors. Contestants will voice their opinions through applicable event directors. The amount of cattle in the draw must equal the largest number of contestants in a performance.

30. Re-run cattle cannot be run twice during a performance unless in 2 separate sections. Cattle drawn for cannot be used for specialty acts until after the animal has been competed on.

31. Cattle in the timed events will have a weight limit assessed to them as follows: TR-650 lbs., SW-600 lbs., CR-280 lbs. and BAW-400 lbs. If the Jerk Down Rule is in effect, tie-down roping calves cannot weigh more than 220 pounds.

32. Cattle shall NOT be loaded in release chute for more than (3) minutes before event.

33. Anytime you have been fouled; whatever penalties you had prior to the foul will be added to the re-run.

34. Maximum time allowed in all timed events will be 30 seconds, excluding penalties.

35. In a multi-go round rodeo, contestants may use 2 loops in BAW & CR and 3 loops in TR and 40/40 in any go round. Two jumps will be allowed in the SW if it is within the time limit.

36. In the timed events, if animal fails to break the neck rope and time is officially started by the contestant, that animal belongs to the contestant. However, if time is started by the animal and the contestant (calf roper, steer wrestler and hazer, or header and heeler) remains behind the plane of the barrier for approximately 10 seconds, that animal should be considered a sulking animal and replaced using the misdraw procedure.

TIE-DOWN ROPING

1. Rope may be dallied or tied hard and fast, either is permissible. Contestant must rope calf, dismount, go down rope, throw calf by hand, cross and tie at least 3 legs.

2. To qualify as a legal tie, there shall be 1 or more wraps around all 3 legs and a ½ hitch.

3. If the calf is down when roper reaches it, the calf must be let up to where 3 legs are dangling and be thrown by hand. If roper's hand is on the calf when the calf falls, calf is considered thrown by hand.

4. Catch as catch can. Rope must hold calf until roper gets hand on calf.

5. Tie must hold until after judge has completed his inspection. If tie comes loose or calf gets to his feet before the tie has been ruled a fair one, the roper will be marked no time.
6. Two (2) loops will be permitted in a multi-go round contest and should roper miss with both, he must retire and no time will be allowed.
7. Roping calf without releasing loop from hand is not permitted.
8. Contestant must adjust rope and reins in a manner that will prevent horse from dragging calf. If horse drags calf, field judge may stop horse and disqualify roper, any penalty for such offenses can only be assessed by the field judge. If roper, after mounting horse drags calf over six (6) feet, he will be disqualified.
9. Contestants must receive no assistance of any kind from the outside.
10. The field flag judge will pass on the tie by timing 6 seconds from the time the rope horse takes his 1st step forward after the roper has remounted, unless rope comes off calf, then time begins when roper clears the calf.
11. Rope will not be removed from calf and rope must remain slack until field judge has passed on tie.
12. Flagger must watch calf during the 6 second period and will stop watch when a calf kicks loose using the time shown to determine whether calf was tied long enough to qualify. Contestant can request to see watch.
13. Under any circumstances, roper will be disqualified for removing rope from calf after signaling for time, until the tie has been passed on by the field judge.
14. If roper intends to use 2 loops, he must carry 2 loops and must use 2nd loop second.
15. Automatic barrier will be used at all KPRA rodeos for tie-down roping.
16. No metal snaps or hardware shall be used on neck ropes in the timed events.
17. There shall be 2 or more timers, a field flag judge and a barrier judge. Time to be taken between 2 flags. Line judge must stand on the same side of the box as contestant.
18. Arena conditions will determine score, length of score to be set by arena director and timed event spokesman or director if present. Minimum length of score shall be length of box minus 3 feet and maximum length of box.
19. If there must be a re-run of calves to complete a go-round, all calves must be tied down before any stock is drawn. If after 1 go-round has been completed, a fresh calf has to be used, the calf must be roped and tied before the drawing, but if extra calves have been tied at that rodeo, they will not be considered fresh.
20. All tie-down roping must be done from the box to the right of calf chute when facing arena.
21. The "Jerk Down Rule" can be assessed by the stock contractor and must be in the publication before entering the rodeo. The "Jerk Down Rule" will be defined as over backwards with the calf landing on his back or head and all four feet in the air. The judge, at his discretion, can assess a \$50 fine for this infraction and contestant will be disqualified.

STEER WRESTLING

1. Contestant must furnish own hazer and horses. Only one hazer allowed.
2. Steer must be caught from horse. If steer gets loose, dogger must take no more than 1 step to catch steer.
3. After catching steer, wrestler must bring it to a stop or change directions and twist it down. If steer is accidentally knocked down or thrown down before being brought to a stop or is thrown by wrestler putting animal's horns into the ground, it must be let up on all four feet then thrown down.
4. Steer will be considered down only when it is lying flat on its side or on its back with all four feet and head straight.
 - 4a. If for any reason, the flagger is out of position when the steer is thrown and cannot see all four legs, he should watch the hips of the steer. If the hip appears flat, you have to assume all four feet are out instead of waiting to ride around to the front side.
5. Wrestler must have hand on steer when flagged.
 - 5a. However, if the steer is down, but regains his feet while the contestant is changing directions, the steer is to be considered up. The steer must be up on all four feet and then thrown.
6. The fairness of the catch and throw will be left to the judges and their decision will be final.
7. Hazer must not render any assistance to contestant while contestant is working with steer. Failure to observe this rule will disqualify contestant.
8. Contestant and hazer must use the same 2 horses they leave the chute with. Hazer will be disqualified for jumping a steer.
9. A 10 second penalty will be assessed in any case in which a flag judge rules that the dogger's feet touch the ground before the score line is crossed.
10. If dogger misses or loses steer, flagman must ask dogger if he wishes another jump. Dogger must reply at once.
11. No penalty will be assessed for breaking a horn.
12. Cattle used for steer roping, cutting or other events shall not be used for steer wrestling.
13. When fresh steers are used, any fresh steers not thrown down cannot be used during the competition. Contestants will be responsible to throw down such steers under the supervision of the arena director.
14. When barrier is used in the steer wrestling, an automatic barrier will be used and there must be at least a 12 foot box. If box is shorter, steer wrestling must be lap and tap.
15. Arena conditions will determine score, length of score to be set by arena director and steer wrestling director or spokesman, if present, subject to the conditions set forth herein.
16. In steer wrestling the score may be no longer than one half the length of the box plus one foot, unless other arrangements are approved by the steer wrestling director or spokesman.
17. There shall be 2 or more timers, a field flag judge and a barrier judge. Time to be taken between 2 flags.
18. Animals used for this contest should be closely inspected and objectionable ones eliminated. Cattle must have adequate and natural horns. Contestant will not be required to compete on a crippled steer or a steer with a

broken horn. If contestant jumps steer, he accepts him as sound.

19. Contestant will be disqualified if he attempts in any way to tamper with steer or chutes.

20. Anyone jumping from off side in steer wrestling must notify the rodeo secretary when entering and if possible, the barrier should be arranged on the off side in the steer wrestling for such contestants.

21. If the steer falls before it crosses the score line, the contestant shall be entitled to a re-run on his original stock, provided that the contestant declares himself immediately. There will be no penalty added to the re-run if, in the opinion of the judge, the contestant did not deliberately beat the barrier, and if the contestant declares himself immediately. If the originally drawn animal cannot be re-ran, the contestant will run the extra, or have a steer drawn for him.

22. Only one jump will be allowed even in multiple go rounds such as the finals.

DALLY TEAM ROPING

1. Each team will consist of 2 contestants, a header and a heeler. Each contestant will be allowed to enter one (1) time. A medical release can be used to draw out the entire team.

1a. If one member of a team is not able to compete after entering, the remaining member may get someone that is entered in that particular rodeo to rope with him. If the person, who takes the place of the contestant unable to compete, pays the entry fee, then the original contestant will not be put on the fine list. If the replacement contestant pays the fees, any money won will count for the standings. If the replacement team member does not pay the entry fee, the original contestant will be put on the fine list and be responsible for the turnout fee and fine.

2. Each contestant will be allowed to carry 1 rope. Each team will be allowed 2 throws even in multiple go rounds such as the finals.

3. Roping steers without turning loose of the rope will be considered a no catch.

4. Roper must dally to stop a steer. No tied ropes allowed. Exception - heelers over 50 years of age and women over the age of 14 may tie-on rather than dally or with an obvious disability and judges' discretion.

4a. Anyone tied on must use a quick release.

5. Time will be taken when steer is roped, both horses facing in line with ropes dallied tight, with horses' front feet on ground and both riders mounted.

6. Steer must not be handled roughly at any time and ropers may be disqualified if in the opinion of the field judge they have intentionally done so.

7. If the header jerks the steer down prior to the heel loop connecting, team may be disqualified. Judge will rule as to whether this was accidental or otherwise.

8. Broken rope or dropped rope will be considered no time unless time has already been approved by the field judge.

9. If steer is roped by 1 horn, roper is not allowed to ride up and put rope over the other horn or head with hands.

10. In case the field judge flags out a team that still legally has 1 or more

loops coming the judge may give the same steer back lap and tap and a 5 second penalty will be assessed for each loop already thrown.

11. Arena conditions will determine score, length of score to be set by arena director and team roping director or spokesman if present. The minimum score of the barrier is to be the length of the box minus two (2) feet.

12. Animals used for this event should be inspected and objectionable ones eliminated. Mixing of Corrientes with other breeds will not be permitted. Cattle must have adequate natural horns. Once a loop is thrown, steer belongs to team, regardless of condition.

13. Any question as to catches in this contest will be decided by the judges. Contestants must hold dallies until flagger passes catches.

14. Each team roping partner will pay the full amount of the entry fee plus stock charge and the full amount of the entry charges.

15. If contestant leaves horse between flags at any time, he will receive a no time.

16. LEGAL CATCHES:

a. There will be only 3 legal catches:

1. Whole head

2. Both horns

3. Half a head

b. Any heel catch behind both shoulders is legal if rope goes up heels.

c. The steers body must be changed and moving forward before the heel loop can be thrown, however, if the steer stops it must be moving forward for the heel loop to be legal. Any heel loop thrown in the switch will be considered a "crossfire" and no time will be recorded.

17. Penalties:

a. One hind foot receives a 5 second penalty.

b. Breaking the barrier is a 10 second penalty.

18. ILLEGAL CATCHES: (Disqualifications)

a. If hondo passes over 1 horn and the loop the other catch is illegal.

b. Front leg is illegal. As soon as front leg goes into head loop, it will be considered no time. Header should release stock immediately.

c. If in the opinion of the field flagger a heel loop is thrown before the header has dallied and changed the direction of the steer, team shall be disqualified.

d. If in the opinion of the field judge, the header jerks the steer down unnecessarily, team will be disqualified.

e. Any time loop crosses itself on a head catch, it is illegal.

19. Excessive early hazing by the heeler can result in a fine to be assessed by the judge, stock contractor or event director.

20. You must designate at the beginning of the year if you want to compete in the open or 40/40 and cannot change.

COWGIRLS BARREL RACING

General Rules

1. Barrel racers at KPRA approved rodeos must be female.

2. All contestants must wear complete western attire, including boots and hat or helmet. Sleeveless shirts or blouses are prohibited. Blue jeans are

permissible. Violation of this rule will result in immediate disqualification. Judges have the privilege of waiving the hat rule if weather warrants such action.

3. If a contestant is vet releasing, contestant cannot compete in a KPRA rodeo or a co-sanctioned rodeo for five (5) days, but can enter any rodeo within that five day period, if the entry closing date falls within this five day period. Once the 5 day period is up, vet release terminates. Vet release begins with first performance/slack used. It is the responsibility of the contestant to notify the rodeo secretary at least two (2) hours prior to performance in which contestant is in so that their entry fee does not go into the payoff. If contestant fails to properly notify rodeo secretary and their entry fee is included in the payoff, contestant shall be responsible for fees. Violators will be fined \$250 and no earnings will count toward standings.

4. There is to be only 1 contestant's horse in the arena at a time during the barrel race, without exception. The barrel race will be the last timed event during a paid performance and arena is to be kept clear during the event.

5. There shall be no rubber or plastic barrels or barrel pads used.

6. The flag judge will flag the nose of the horse at the start and the finish of each contestant's run.

7. Any time contestant crosses starting line, time will begin and contestant accepts arena conditions, running order and rake, as is.

8. Contestants will be assessed a 5 second penalty for knocking over a barrel. Touching a barrel is permitted.

9. Should barrel be knocked over and it sets up on opposite end, the 5 second penalty will still be assessed.

10. If all barrels are standing when a contestant crosses the score line after completing a qualified run, it is still considered a qualified run, even if the barrel falls after she is flagged.

11. Committee is asked to prepare ground in the arena to be consistent throughout the event and remaining performances.

12. If slack is run before the 1st performance of the rodeo, it is mandatory to work and water the ground the same as will be done for the performance.

13. Exhibition runs will be allowed during a rodeo performance at the Stock Contractors discretion and ONLY after contestant has completed her paid performance run. Violators of this rule will be assessed a \$100 fine. There will be a \$5 timer charge for each exhibition run.

14. Ground must be raked after half of the actual runs of the largest performance (round up on odd numbers), and be continued to be raked after the same amount in the remaining performance and slack after actual runs except at finals.

15. Contestants may approach the right or left barrel first, whichever she chooses.

JUDGES - LBR

1. There shall be 2 judges in the barrel race.

2. Both judges shall be required to be present during the barrel racing event with 1 judge flagging the line and the other judge watching to see that a qualified cloverleaf pattern is run. The same judge must flag all performances.

3. There shall be no talking to flagman, timekeepers, or judges during the entire barrel racing event.
4. In all cases of dispute, the rodeo will proceed without further delay under the existing KPRA rules. Any contestant, or person connected with the contestant, altercation or arguing with judges will be barred from the arena and contestant will be disqualified from that go-round and may be subject to fine and suspension.
5. The flagman shall not leave from his designated place until all barrel racers have competed during that section of competition.
6. Barrel setters are allowed but must be educated by Judges regarding proper placement of the barrels.

BARREL PATTERN - LBR

1. Barrels are to be set on the inside of each stake in a cloverleaf pattern. Once the stakes have been set, no one will be allowed to put the barrels on the stakes and work their horse, however, you may set the barrels up to 20 feet off the stakes and work your horses. If the ground is worked within ½ hour prior to the performances, the arena will be closed.
2. The standard course for barrel racing is:
 - 90 feet between barrel 1 and 2;
 - 105 feet between barrel 1 and 3;
 - 105 feet between 2 and 3;
 - 60 feet from barrels 1 and 2 to score line.

Score line should be at least 45 feet from the end of the arena.

BARREL PATTERNS CANNOT BE BIGGER THAN THE STANDARD COURSE

3. Barrels will be set at least 15 feet from the fence or wall, except the 3rd barrel and it should be at least 25 feet from the fence or wall.
4. The starting line must be correctly measured back from barrel 1 and 2, so the distance is the same to insure barrel racers going either to the right or left the same opportunity.
5. In small arenas, it is recommended the pattern be reduced proportionately to a standard barrel pattern.
6. Barrels will be measured by a tape measure by rodeo judge prior to the 1st performance and staked. The measurement of barrels and score line in feet and inches MUST be turned in to rodeo secretary before 1st performance and shall be posted. Judges shall check markers before each performance/slack and re-measure, if necessary.

Disqualifications - LBR

1. Contestants will be disqualified if after crossing score line and being flagged by the flagman as beginning the run, she re-crosses the score line before completion of the cloverleaf pattern.
2. Contestants will be disqualified for breaking the cloverleaf pattern in any way. Contestants may, however, approach the right or left barrel first, whichever she chooses.

Timers - LBR

1. Electric timers must be used in ladies barrel racing.
2. Equipment necessary: Complete electric timer plus 1 extra timing clock or stop watch to be operated manually.
3. Those persons timing the 1st performance must time those contestants remaining in all performances, unless due to sickness, incompetence or injury.
4. Electric timer must be backed up by a flagman who will stand directly behind 1 timer post in the arena. It is recommended that the electric timer be inside the arena 7 feet from the fence, and no more than even with the first and second barrels. If the electric timer is mounted in the fence, judge should be in most advantageous position to flag the race.
5. Line on fence for flagman should be marked.
6. **MANUAL TIME WILL BE RECORDED AND READ IN 10THs. ELECTRIC EYE TIMES WILL BE RECORDED AND READ IN 100THs.** When the backup times are to be used for those electronically missed, a zero will be added to the 10ths.
7. It is **MANDATORY** that back up times be recorded for all contestants.
8. Secretaries will be fined for failure to keep back up times (\$25 for the 1st offense, progressive by \$25 thereafter).
9. Set the timer the same height and position each performance and lock legs.
10. During the performance and slack prior to the barrel race, it is the judges responsibility to set timer in the arena and see that it is functioning properly.

Electric Timer Failure - LBR

1. If the electric eye fails to work for 4 or more contestants in an entire go-round, the backup (manual) recorded times will be the official times for everyone.
2. When the electric eye fails to work for less than 4 of the contestants in an entire go-round, the manual times will be the official times for those electronically missed.
3. If the timer fails to work for the 1st performance, all remaining performances will be hand flagged. A backup electric eye cannot be used for remaining performances unless it is also available for the 1st performance.

Re-Runs LBR

1. There shall be no re-runs due to faulty equipment.
A re-run must be called for immediately following the event and contestants must be notified.
2. Re-run to be given to contestant should default occur due to interference in the arena while contestant is performing.
3. If a contestant decides to re-run, all penalties prior to the foul shall be accessed to the re-run.

4. Should for any reason the barrels not be placed on the markers or the flagman not be in the correct place, things must be put in correct order and all contestants who ran on incorrect course must re-run with no penalties assessed.
5. In the event a barrel is off the marker or the timer or flagman is not in the proper position and conditions cannot be corrected and a re-run given, the rodeo will be paid off using the jackpot system in order not to sacrifice money won at that rodeo; however, money will not count towards standings if jackpot system is used.
6. Re-run to be given contestant at judges discretion.
7. If a re-run is given for any reason, contestant has the option of waiting until the last contestant in that go-round to run, or will run immediately after the performance.

WOMEN'S BREAKAWAY ROPING

1. Ropes are tied to saddle horn with nylon string provided and inspected by the judges. Flag must be 4 inches wide and 12 inches long, visible by flagman or judge, and must be attached to end of the rope, with no long tails.
2. Calf must break rope away from saddle horn. Contestant will receive no time should she break rope from saddle horn herself.
3. Breakaway cattle cannot have horns longer than 2 inches.
4. Calves used must be run and/or followed on horseback prior to the competition. Calves from the men's tie-down roping may be used for breakaway roping.
5. Rope must pass over the head and catch as catch can.
6. Contestants fouled by the barrier or if neck rope stays around the calf, she will be given a re-run if the foul is declared immediately by pulling up. If rope is thrown, no re-run will be given.
7. Should the contestant miss with the 1st loop and her 2nd loop becomes uncoiled or loose and touches the ground, she will receive no time.
8. Two (2) loops will be permitted in a multi-go round contest and should roper miss with both, she must retire and no time will be allowed.
9. Breakaway roping is to be added to the association as a regular event and will be included in the finals.
10. Anything not covered in the above rules will be covered by the men's tie-down roping or under General Timed Event Rules.

40/40 MIXED TEAM ROPING

1. To be eligible for the 40/40 mixed roping, your team must consist of: two men over 40 years old, two women over 40 years old, a man over 40 and a woman of any age, a woman over 40 and a man or woman of any age.

4. You may enter one (1) time. Only the highest earnings will go towards the all-around standings.

5. The rules not covered here will be the same as the dally team roping. Please refer to them for further information.
6. You must designate at the beginning of the year if you want to compete in 40/40 or Open Team Roping, and cannot change. If 40/40 is designated, a contestant can compete in Open TR at rodeos without 40/40, but any money won will not count toward the 40/40 standings.

YEAR-END FINALS

1. The KPRA will hold a year-end Finals if financially feasible.
2. The top 12 money winners in each event will be responsible for entering their events for the finals, as well as anyone else further down the list that would like to attend and are not in the top 12. If one of the top 12 chooses not to attend, the next person in line will be offered the position, and so on down the list of money earners, provided that person entered the Finals by the Finals entry deadline. If you do not enter the Finals by the entry deadline, you will not be called to fill the next position unless the event did not fill.
3. Team ropers may enter the Finals only 1 time. Money won by the team will be accredited to each contestant's year end standings. All money won will count toward the Finals. Team ropers must choose their partner from the top 12 headers or top 12 heelers, and they must be a KPRA member in good standing, and can only substitute if there is a medical release. They must meet all eligibility requirements. Saddles and buckles to be given to Champion Header and Heeler.
4. To be eligible for the KPRA Finals, you must have competed in at least five (5) KPRA first approved rodeos, EXCEPT bareback, saddle bronc and bull riders, who are only required to have competed in three (3) KPRA first approved rodeos, in each event during the current season as a KPRA card holder, or have board approval.

If more contestants are needed to fill the event, the KPRA board may invite contestants from associations we have co-approved with in order to fill the event to 12 contestants.
 1. An invited contestant, to fill an event at the finals, must buy a KPRA membership for the following year before competing at the finals.
 2. Invited contestants will be eligible for finals awards, but will NOT be eligible for year end awards.
5. Contract help must have worked at least two KPRA first approved or co-approved rodeos during the current season as a KPRA card holder to be eligible to work the Finals. Rodeos will not count until after card has been purchased.

(4) judges will be selected by the top 15 contestants receiving finals entries with a ballot for selecting judges.
7. In order to qualify to bring stock to the Finals, a stock contractor must have a minimum of 2 KPRA sanctioned rodeos during the year.

7a. Stock contractors will nominate animals from their herd for the rough stock events. Contractors may feature two animals in each event to be considered for bucking horse or bull of the year.

7b. Event directors shall select finals stock from contractors list and shall be responsible for setting pens. Judges who have knowledge of animals shall assist each event director with this task.

8. All contract help, including secretary, will be paid a fee to be set by the Board of Directors and will be notified of their wages at the time they are notified of their selection.

9. Entry fees and prize money will be set by the Board of Directors at the same time the number of performances are set. This is determined by the financial condition of the association. All events, including heading and heeling, shall have equal added money from the KPRA Finals Fund.

10. If a contestant turns out stock other than for medical or vet reasons, he will receive a no score for that performance and may compete on remaining stock.

11. Contestants must enter and compete at the KPRA Finals to win year end awards, unless medical or veterinarian releases are approved by the board.

12. All mounted contestants must ride in the Grand Entry. Stock contractors, judges and directors have the right and responsibility to turn in violators. A fine of \$50 can be assessed on anyone who does not ride in the Grand Entry.

13. Finals award winners must be present at the designated place of the awards presentation in order to receive any awards to which they are entitled. If an award winner has a valid excuse for not attending, he/she must notify the KPRA secretary prior to the awards presentation.
